Dreer's Quarterly Wholesale Price List.

January-March, 1893.

In submitting the Winter Edition of our Wholesale Price List it gives us much pleasure to return our thanks for the very liberal patronage accorded us during the past season, and in soliciting your orders for the present year, we beg to assure you of our continued and unceasing efforts to give the utmost satisfaction to our customers, and to maintain the high reputation, that we have so long enjoyed, for supplying only the best strains of Vegetable and Flower Seeds at reasonable prices.

☞ In the Plant Department our stock of decorative plants, Palms, Dracænas, Pandanus, Ferns, etc., is probably the most complete in the country, consisting of a full line of all sizes, from small seedlings for growing on, to specimens of the most useful decorative sizes; all are in a clean, healthy and vigorous condition, thrifty and well grown. We now devote 44 large houses (over 100,000 square feet of glass) to this class of plants alone, while we give close attention to all other desirable Florists' Stock.

☞ Shipments of plants should be made by express, though to near-by places the goods will go safely by freight. We beg leave to say, however, we assume no responsibility whatever for safe delivery of plants by freight, and the goods travel solely at buyers' risk.

☞ Kindly notify us if goods are not received promptly. **Claims will not be considered unless made within ten days after the receipt of goods.**

☞ Unknown correspondents, desiring to open an account with us, will please send a satisfactory reference, otherwise cash must accompany the order.

☞ Remittances should be made by Post Office Money Orders or Postal Notes, Drafts on Philadelphia or New York banks, or Express Money Orders. Where it is not possible to obtain these, the letters should be registered. Remittances should not be made otherwise than as above directed.

☞ We decline sending perishable goods *Collect on Delivery* to distant points, unless a remittance be made on account, to guarantee the acceptance.

☞ No charge is made for boxes or packing, nor for delivery to Freight Depots or Express Offices.

☞ In filling out your order, always give *shipping directions*, and write *name and address distinctly*.

Specialties in Vegetable Seeds.

Columbian Mammoth White Asparagus.

We have received from the introducers seed of this valuable novelty, which is described as "An entirely new and magnificent variety of asparagus, which is sure to be in great demand because it furnishes *white shoots* which *stay* white as long as fit for use, without earthing up or any other artificial blanching, and because it can be absolutely depended on to give 80 to 90 per cent. of white plants from seed. This grand novelty has been brought to its present state of perfection by one of the largest and most experienced growers of asparagus in this country, by many years of careful selection from a single plant found in one of his fields of Conover's Colossal. To-day he has a field of the Columbian Mammoth White from which he sells the product to a canning factory, that allows him over 20 per cent. more for it than for any other kind grown for them. There is no question but this is the greatest advance in asparagus improvement since the introduction of the Conover's Colossal.

Per pkt. 15 cts.; oz. 50 cts.; $\frac{1}{4}$ lb. \$1.75; lb. \$6.00.

Improved Extra Early Round Pod Valentine.

The earliest of the green snap short beans and the best and most popular variety for market gardeners.

Per qt. 20 cts.; peck, \$1.10; bus. \$4.00.

Thorburn's Extra Early Refugee Bean.

An early round-podded green bean ripening a few days later than Improved Red Valentine; very desirable for market. Per qt. 25 cts.; peck, \$1.25; bus. \$4.50.

Improved Rust-proof Golden Wax Bean.

This excellent variety is an improvement on the Golden Wax. The pods are thicker, more productive, and if anything, of better quality, but its greatest merit is the fact that it is absolutely rust proof.

Per qt. 25 cts.; peck, \$1.50; bus. \$5.00.

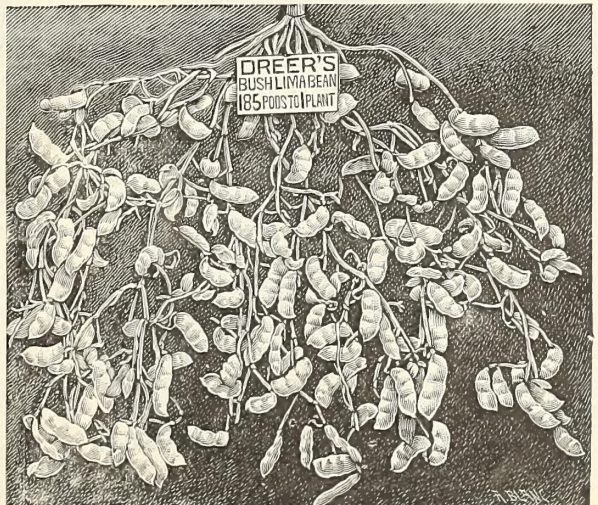

Speckled Wax Bean.

This new variety is unquestionably one of the best of the Wax Beans. The pods are long, cylindrical, crisp, tender, stringless and of a clear waxy yellowish white color.

Per qt. 30 cts.; peck, \$2.00; bus. \$7.50.

Dreer's Bush Lima Bean.

This remarkable bean is a true bush variety of Dreer's Improved Pole Lima, possessing all the good qualities of that excellent and well known sort. The plants grow from $1\frac{1}{2}$ to 2 feet high, of vigorous bushy habit, producing pods in great abundance, and ripen fully ten days before the pole sort. Pkt. 10c.; $\frac{1}{2}$ pint 50c.

Early Egyptian Turnip Beet.

A standard sort and one of the earliest in cultivation, color rich deep crimson, excellent both for sowing in the open ground and for forcing. From the smallness of the tops at least one-fourth more can be grown on the same space than any other variety.

Per lb. 50 cts.; per bus. \$8.00.

Early Eclipse Beet.

Of rapid growth, small top and fine quality, as early as the Egyptian, but larger and of better quality, skin and flesh intense red.

Per lb. 50 cts.; per bus. \$8.00.

Lentz's Extra Early Turnip Beet.

A popular variety with the market gardeners. About as early as the Egyptian, producing a crop in six weeks from the time of planting. In size and shape it is similar to the Bastian.

Per lb. 50 cts.; per bus. \$7.00.

Bastian's Extra Early Blood Turnip Beet.

The perfection of a Beet for the market gardener and family use; very early, of quick, large growth, fine turnip form and bright red color, a good forcing variety.

Per lb. 40 cts.; per bus. \$5.50.

Bastian's Half Long Beet.

A valuable second crop variety of excellent quality, color bright red. A good keeper and one of the best fall and winter beets.

Per lb. 60 cts.; per bus. \$7.00.

Edmand's Blood Turnip Beet.

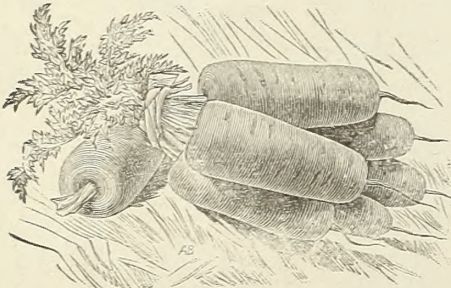

A favorite in the Boston market. Bulbs round, handsome and of uniform shape, smooth and of good marketable size, skin and flesh dark red, and of excellent quality.

Per lb. 50 cts.; per bus. \$8.00.

Oxheart Carrot.

Intermediate between the Danver's Half-Long and Short Horn varieties. Of fine quality, and valuable for family and market gardens.

Per oz. 10 cts.; $\frac{1}{4}$ lb. 20 cts.; per lb. 70 cts.

EARLY SCARLET HORN CARROT.

Early Scarlet Horn Carrot.

This is one of the most desirable of garden carrots, and a favorite early market variety. It matures in about ten days earlier than the Long Orange, fine grained and of agreeable flavor.

Per. oz. 10 cts.; $\frac{1}{4}$ lb. 25 cts.; per lb. 80 cts.

Danver's Half-Long Carrot.

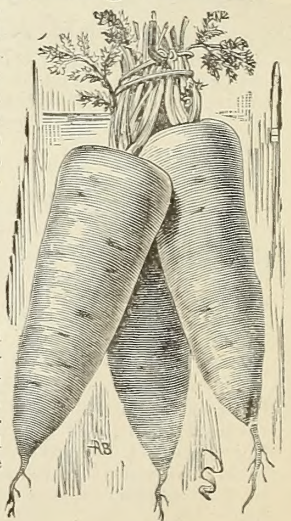

A most excellent variety, either for field or garden culture, broad-shouldered symmetrical roots of a rich orange color, smooth and handsome. It is a great yielder and a valuable market variety.

Per oz. 10 cts.; $\frac{1}{4}$ lb. 20 cts.; per lb. 60 cts.

Nichol's Imp. Long Orange.

A greatly improved strain of the Long Orange Carrot, being earlier, smoother in skin, without any side rootlets, richer in color and of uniform texture throughout.

Per oz. 10 cts.; $\frac{1}{4}$ lb. 25 cts.; per lb. 75 cts.

DANVER'S HALF-LONG CARROT.

CABBAGE.

Our Cabbage Seed is all saved from choice selected stock.

Early Jersey Wakefield.

The leading market gardener's variety and the best for early private use. It is very early, of excellent flavor, of good size and sure to head; extra fine selected stock.

Per oz. 25 cts.; $\frac{1}{4}$ lb. 75 cts.; lb. \$2.50.

Large Early Jersey Wakefield.

An extra selected sort, producing large solid heads, of good quality. It is only a few days later than Early Jersey Wakefield which it excels in size and ability to stand without bursting open.

Per oz. 30 cts.; $\frac{1}{4}$ lb. 80 cts.; per lb. \$3.00.

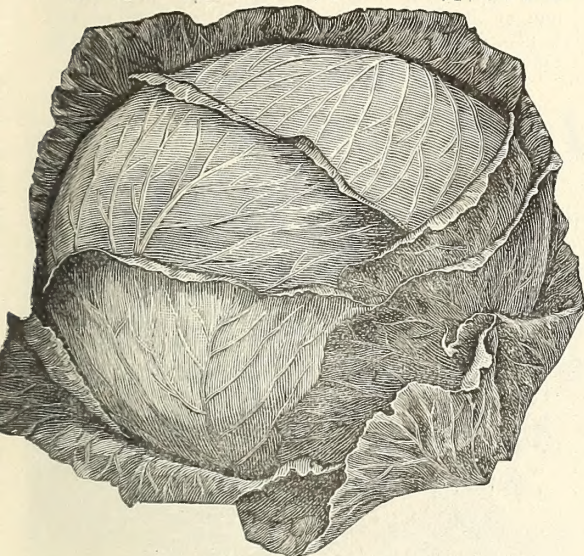

Dreer's Early Drumhead.

We offer a very superior strain of this valuable second early variety. It matures about ten days later than the Wakefield. Broad round heads, quality best, very fine grained, tender and of excellent flavor. The heads often weigh 20 lbs.

Per oz. 25 cts.; $\frac{1}{4}$ lb. 75 cts.; per lb. \$2.50.

Henderson's Early Summer.

A valuable second early variety, coming in about ten days after the Jersey Wakefield, but double the size of that variety. One of the best large early Cabbages. Per oz. 20 cts.; $\frac{1}{4}$ lb. 60 cts.; per lb. \$2.25.

DREER'S EARLY DRUMHEAD.

Selected Premium Late Flat Dutch.

Short stem and large solid flat heads. Our stock has been carefully selected for several years in order to get a cabbage of this type, and we are confident no better strain is on the market.

Per oz. 25 cts.; $\frac{1}{4}$ lb. 75 cts.; per lb. \$2.50.

Dreer's Crystal Summer Savoy.

This excellent new sort will prove of value to market gardeners. The heads are of medium size, nearly round, deeply curled, and very solid. It is a sure header and of the best quality. Its handsome appearance will insure a quick sale for it.

Per oz. 25 cts.; $\frac{1}{4}$ lb. 75 cts.; per lb. \$2.50.

DREER'S SELECTED EARLY JERSEY WAKEFIELD.

Succession.

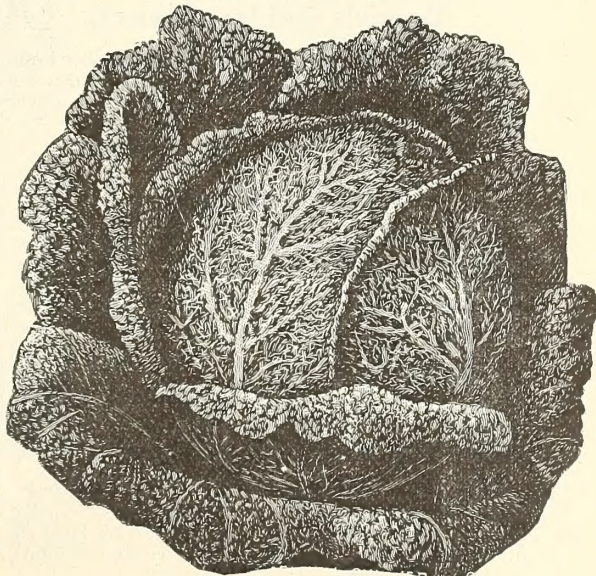

A second early round-headed sort that will doubtless find favor, as it heads very evenly and comes in a few days after Early Jersey Wakefield. Of good quality and in all respects a desirable sort.

Per oz. 25 cts.; $\frac{1}{4}$ lb. 75 cts.; per lb. \$2.50.

All Seasons.

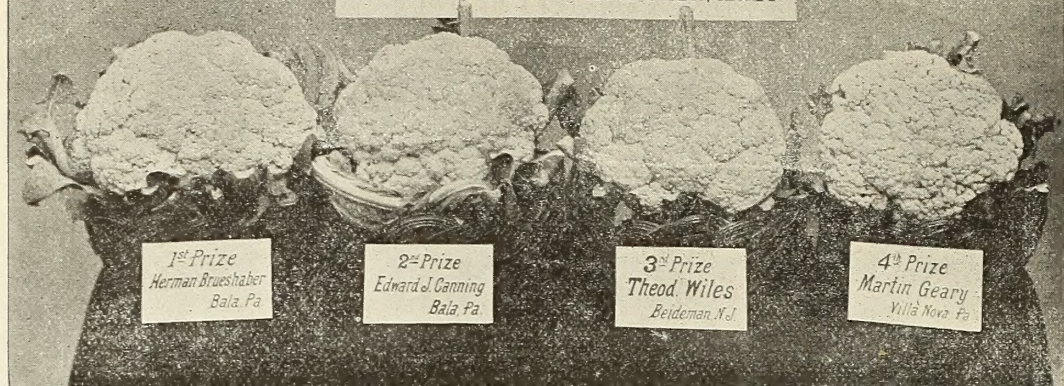

A second early Drumhead Cabbage. The heads being large and thick through make it a most excellent variety, either for early spring or fall marketing. In sweetness, tenderness and richness of flavor, it is very superior, ranking equal to the oxheart class.

Per oz. 25 cts.; $\frac{1}{4}$ lb. 75 cts.; per lb. \$2.50.

CAULIFLOWER.

Dreer's Earliest Snow Storm.

The earliest and best of all for forcing or open ground culture. It is a dwarf, with short outer leaves, and can be planted two feet apart each way; always sure to make large fine heads earlier than any other, and is the market gardener's favorite.

Large pkt. 50 cts.; per oz. \$6.00.

Dreer's Selected Dwarf Erfurt.

Dwarf and compact, can be planted 18 inches apart each way. The heads are large, close, pure white, and of the finest quality. Our strain cannot fail to give satisfaction, whether grown in boxes or in the fields.

Large pkt. 50 cts.; per oz. \$3.00.

CELERY.

White Plume.

We offer a choice selected strain of this valuable and popular variety. The White Plume is unsurpassed for fall and early winter use, requiring very little earthing up to blanch it.

Per oz. 30 cts.; $\frac{1}{4}$ lb. 80 cts.; per lb. \$3.00.

Dreer's Golden Dwarf.

The best of the half dwarf varieties, stalks large and full; the heart is golden yellow, turning to a light color when blanched. Very solid, rich flavor and a good keeper.

Per oz. 20 cts.; $\frac{1}{4}$ lb. 60 cts.; per lb. \$2.00.

Giant Pascal.

This is a selection from the Golden Self-Blanching, and adds to the general good qualities of its parent, superior keeping qualities. The stalks are very large, thick, solid, crisp, and of a rich, nutty flavor, free from any trace of bitterness; it blanches very easily and quickly, and retains its freshness a long time after being marketed.

Per oz. 20 cts.; $\frac{1}{4}$ lb. 65 cts.; per lb. \$2.25.

Voutier's Selected Golden Heart.

This is a choice strain from the Golden Heart, selected by the well-known and successful market gardener, Chas. Voutier, who has placed his stock in our hands for sale. The stalks are very large and full, quality of the best.

Per oz. 30 cts.; $\frac{1}{4}$ lb. 80 cts.; per lb. \$3.00.

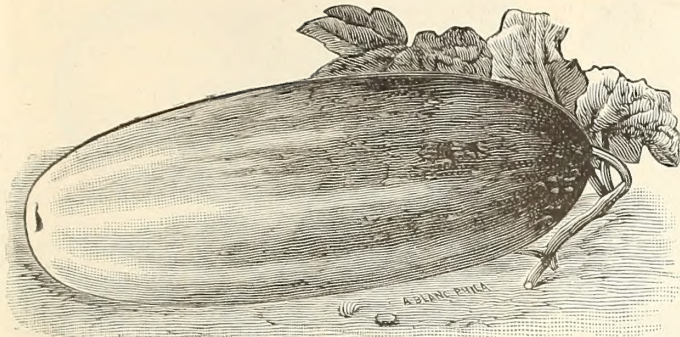

Golden Self-Blanching.

An early, beautiful, and in every way desirable sort, requiring but little labor to blanch. The heart is a rich golden yellow, with light yellowish green outer leaves. Of dwarf, compact habit, rich nutty flavor and an excellent sort for table decoration.

Per oz. 30 cts.; $\frac{1}{4}$ lb. 80 cts.; per lb. \$3.00.

CUCUMBERS.

New Giant White.

This interesting variety is a novelty of exceptional excellence. The cucumbers are of a pure white color, making them very attractive for the table. They grow to a large size, reaching when full grown a length of twenty inches by ten inches in circumference, perfectly straight and of uniform size from end to end, flesh very solid and crisp and of superior quality.

Per pkt. 10 cts.; per oz. 30 cts.

Thorburn's New Everbearing.

This is an entirely new and unique variety. It is of small size, very early, enormously productive and valuable as a green pickler. Its peculiar merit is that the vines continue to flower and produce fruit until killed by frost, whether the ripe cucumbers are picked off or not.

Per oz. 10 cts.; $\frac{1}{4}$ lb. 30 cts.; per lb. \$1.00.

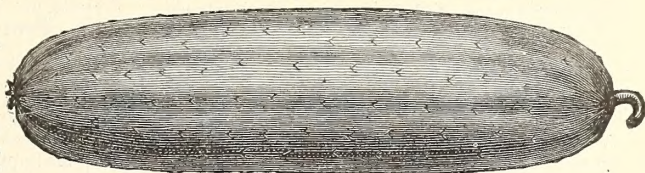

Improved Early White Spine.

The favorite market variety, largely used for forcing and extensively grown South for shipping North early in the season; of medium to large size, deep green, crisp, fine flavor, and very productive.

Per oz. 10 cts.; $\frac{1}{4}$ lb. 20 cts.; per lb. 70 cts.

Arlington White Spine.

A strain of White Spined which has been improved through many years of careful selection, with a view to use for forcing in hot-houses and frames. Our stock produces handsome dark-colored cucumbers, which excel in crispness and flavor all the other varieties which flourish in open air culture. A peculiar feature of this strain is the evenness of size, form and color of the cucumbers throughout the entire crops; they sell at fancy prices in market, early in the season. Per oz. 20 cts.; $\frac{1}{4}$ lb. 50 cts.; lb. \$1.50.

ARLINGTON WHITE SPINE.

LETTUCE.

Philadelphia

White Butter.

Also known as Ridge Lettuce. One of the best known forcing varieties, largely grown by the Philadelphia market gardeners, fine, large, solid heads, of a light green color, and very tender. The best early sort.

Per oz. 15 cts.; $\frac{1}{4}$ lb. 35 cts.; per lb. \$1.25.

Early Dutch Butter Spotted.

Producing fine large heads of excellent quality, and one of the best forcing and market sorts; also stands the heat well in summer.

Per oz. 15 cts.; $\frac{1}{4}$ lb. 40 cts.; per lb. \$1.50.

Boston Market.

(White Seeded Tennis Ball.)

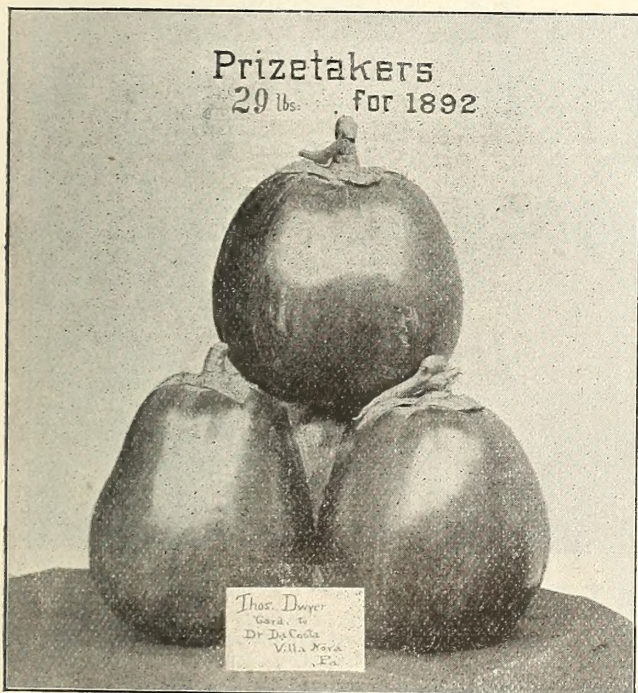

This variety is extensively grown by the market gardeners. A fine early sort, small heads, very early and one of the best for forcing.

Per oz. 15 cts.; $\frac{1}{4}$ lb. 35 cts.; per lb. \$1.25.

Black Seeded Simpson.

This variety forms a much larger head than the early curled Simpson, it is much lighter in color, forming a large, thin and very tender leaf. It is the best of the curled varieties for forcing and is used to a considerable extent for this purpose. It is also an excellent summer lettuce for out-door planting.

Per oz. 15 cts.; $\frac{1}{4}$ lb. 40 cts.; per lb. \$1.50.

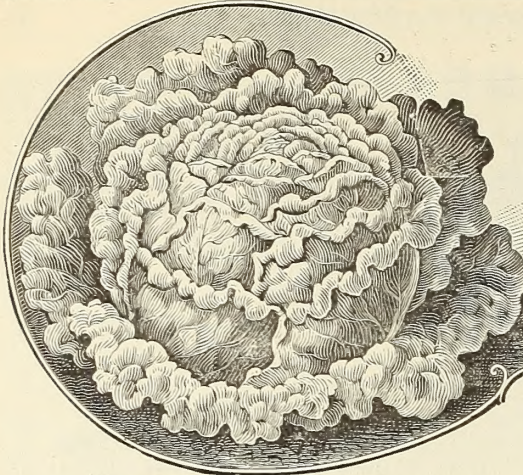

Egg Plant.

New York Improved Large Purple.

The leading market variety; large, round, dark purple, free of thorns, excellent and most productive. Seed saved on our own grounds.

Per oz. 40 cts.; $\frac{1}{4}$ lb. \$1.10; lb. \$4.00.

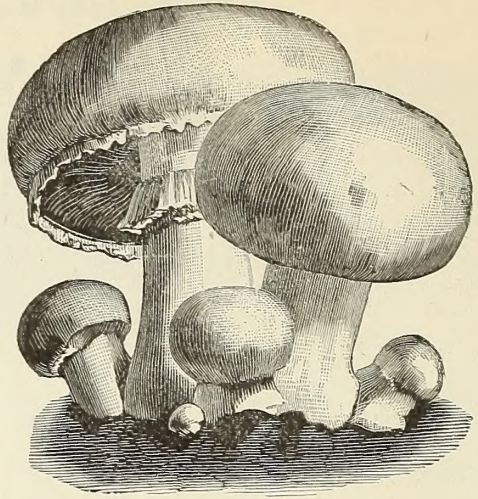

Silver Ball Lettuce

This is one of the best all-the-year-round Lettuces we know of. It is an excellent variety, as well for early spring and summer use as for winter forcing. The heads are silvery white, very firm and compact, with beautifully curled leaves. It is of fine quality, very tender and crisp, and does not soon run to seed.

Per oz. 15 cts.; $\frac{1}{4}$ lb. 40 cts.; per lb. \$1.50.

Hittinger's Belmont Forcing Lettuce.

A great improvement on the old Boston Market or Tennis Ball Lettuce, originated and perfected by Messrs. Hittinger Brothers of Belmont, Mass., extensive growers of lettuce under glass. It is larger in size than the old varieties, with well formed heads of remarkably crisp and tender quality, most desirable for forcing. Per oz. 20 cts.; $\frac{1}{4}$ lb. 60 cts.; lb. \$2.00.

Mushroom Spawn.

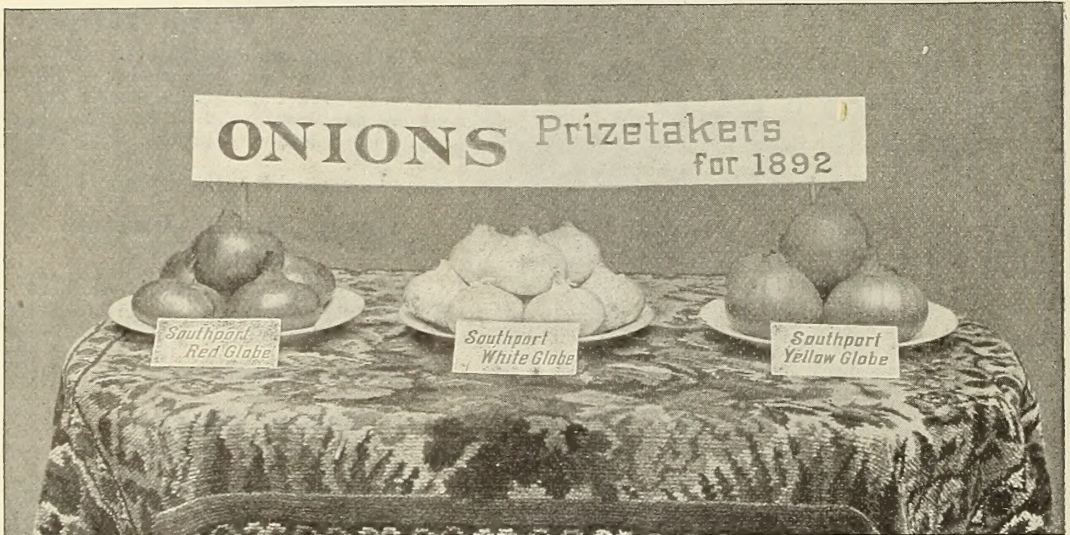

Best English Milltrack. In bricks. Each 15 cts.; per doz. \$1.75, or per lb. 12 cts.; 25 lbs. \$2.50; 100 lbs. \$8.00.

French, in 3 lb. boxes, \$1.00.

Big Boston Lettuce.

This variety is also an improvement on the Boston Market which it resembles in color, shape and general appearance but is double the size. It is about one week later in maturing, but its solidity and greater size of head will make it a most valuable sort. A grand variety for forcing or open ground.

Per oz. 20 cts.; $\frac{1}{4}$ lb. 60 cts.; lb. \$2.00.

ONIONS.

Philadelphia White or Silver Skin. The leading variety of White Onion, extensively grown for pickling, very early and mild flavored, it produces fine onions from seed. Per oz. 30 cts.; $\frac{1}{4}$ lb. \$1.00; per lb. \$3.50; 5 lbs. \$16.25.

Philadelphia Yellow Strasburg or Dutch. This variety is largely grown for sets. It is a good keeper and well flavored, bright straw colored skin. Per oz. 20c.; $\frac{1}{4}$ lb. 60c.; per lb. \$2.25; 5 lbs. \$10.00.

Philadelphia Yellow Globe Danvers. This is the standard yellow Onion of our markets. A large globe-shaped onion, of mild flavor and attractive color. It is a good keeper and very productive. Per oz. 20c.; $\frac{1}{4}$ lb. 60c.; per lb. \$2.25; 5 lbs. \$10.00.

Southport Yellow Globe. A very large handsome, globular shaped, yellow variety, very productive, of mild flavor, excellent keeper.

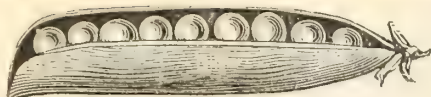

Per oz. 20 cts.; $\frac{1}{4}$ lb. 60 cts.; lb. \$2.25.

Southport White Globe. Pure white color, mild flavor, and equally as good for keeping as the yellow sort.

Per oz. 30 cts.; $\frac{1}{4}$ lb. 90 cts.; lb. \$3.25.

Southport Red Globe. Similar in shape and size to the Southport Yellow Globe, but ripens somewhat later. It is a splendid keeper, and in quality is superior to most other red varieties.

Per oz. 20 cts.; $\frac{1}{4}$ lb. 60 cts.; lb. \$2.25.

Dreer's Eureka Extra Early Pea.

The earliest and most productive pea. We have repeatedly tested our claim for its earliness on our trial grounds, in comparison with other leading early varieties. It has never been less than four, and frequently more than ten days earlier. In habit, quality, purity and productiveness, it is the most desirable sort. For the market gardener they lack no important feature. It grows twenty inches high, and free from runners. The crop can be gathered in two pickings.

Qt. 25 cts.; pk. \$1.00; bus. \$4.00.

Heroine Pea.

This new, medium early pea comes in between Advancer and Champion of England, and bears a profusion of large, long, slightly curved, pointed pods, containing from 9 to 10 large peas of finest quality. It is an improvement on Stratagem and Pride of the Market, and is destined to eclipse these varieties.

Per qt. 40 cts.; per pk. \$3.00.

Shropshire Hero Pea.

This grand new pea is a second early wrinkled variety, growing about 2½ feet high, producing long, handsome, well-filled pods in great abundance. The peas are of large size and exquisite flavor. It was one of the best in our trial grounds last summer.

Per qt. 40 cts.; pk. \$2.75; bus. \$10.00.

THE STANLEY PEA.

This delicious, new pea is the sweetest in existence. It is a cross with American Wonder and Telephone, and inherits the delicacy of these fine varieties. When seen growing with other sorts, it is conspicuous for its uncommonly large foliage, its strong stocky vine and the abundance of its fine large pods. In rich soil it grows about eighteen inches high, bearing pods four inches in length. It is a tremendous cropper and ripens its pods very evenly, so that nearly the entire crop may be taken at one picking.

Per qt. 40 cts.; pk. \$3.00.

Cardinal Globe Radish.

We can safely recommend this sort as being of first quality in all respects for forcing. Of globular shape and brilliant red color, with short top, and especially adapted for forcing, as it will stand a large amount of heat without becoming pithy; flesh tender, crisp, and in quality all that can be desired.

Per oz. 10 cts.; ¼ lb. 25 cts.; per lb. 80 cts.

White-Tipped Scarlet Gem Radish.

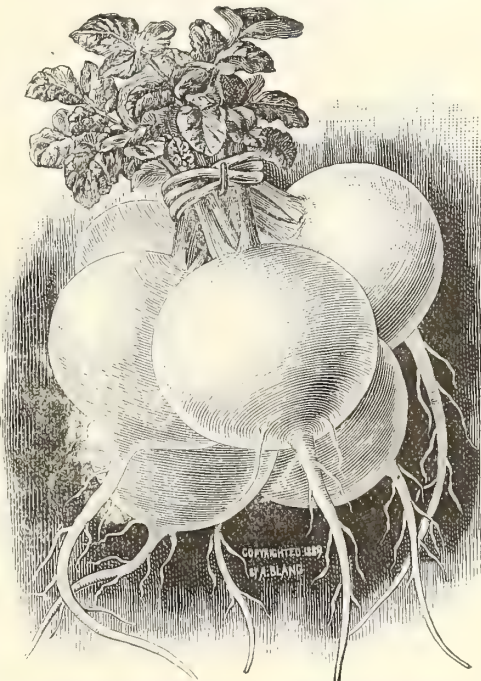

A new and excellent variety for forcing, with very short leaves, bright scarlet, with a clearly defined white tip, giving it a very attractive appearance when bunched for market. It is a quick grower, tender and crisp.

Per oz. 10 cts.; ¼ lb. 20 cts.; per lb. 60 cts.

Dreer's Scarlet Frame Radish.

One of the earliest and best of the Turnip varieties for forcing; very short-leaved, it is conspicuous for its uncommonly large foliage, its strong stocky vine and the abundance of its fine large pods. In rich soil it grows about eighteen inches high, bearing pods four inches in length. It is a tremendous cropper and ripens its pods very evenly, so that nearly the entire crop may be taken at one picking.

Per oz. 10 cts.; ¼ lb. 25 cts.; per lb. 75 cts.

Zitter's Selected White Box Radish.

A perfectly round, white variety, free from any sharpness or bitterness, and the quickest of the white sorts.

Per oz. 10 cts.; ¼ lb. 30 cts.; per lb. \$1.00.

Early Forcing**Fireball Radish.**

One of the finest forcing Radishes yet offered. Of rapid growth and extremely small top. Brilliant scarlet color, crisp, tender, and of mild flavor. Useful only as a forcing variety or for early spring use. Per oz. 10 cts.; $\frac{1}{4}$ lb. 20 cts.; per lb. 70 cts.

Olive-Shaped Golden Yellow Radish.

A new very early yellow Radish, adapted for forcing and the open ground. It is of attractive shape, crisp, tender, maturing in about twenty days. Per oz. 10 cts.; $\frac{1}{4}$ lb. 30 cts.; per lb. \$1.00.

Parsley Half Curled.

This variety is largely grown by market gardeners. The plant is of dwarf habit, with dark green leaves, finely cut and beautifully curled. Per oz. 10 cts.; $\frac{1}{4}$ lb. 25 cts.; per lb. 75 cts.

THE STONE TOMATO.

TOMATO.**The Stone.**

This fine variety has fully sustained the claim of its introducer to be the nearest to perfection of any yet produced. In our trials last summer it proved to have all the good qualities claimed for it. The fruit is very large, deep and solid, of a bright scarlet color, very smooth, ripening evenly to the stem without a crack.

Per oz. 30 cts.; $\frac{1}{4}$ lb. 80 cts.; lb. \$2.50. Selected stock from first fruits, per oz. 35 cts.; $\frac{1}{4}$ lb. \$1.00; lb. \$3.50.

Atlantic Prize.

This Tomato proved identical with the Early Ruby in our trial grounds. It has been grown for several years by some of the most successful market gardeners of Atlantic County, N. J., who have invariably had their fruit in market two weeks ahead of all competitors. A peculiar feature of this variety is the open habit of the plant, which spreads out on all sides, exposing the fruit in a cluster in the centre, enabling the sun to reach and ripen them quicker than other varieties.

Per oz. 30 cts.; $\frac{1}{4}$ lb. 80 cts.; lb. \$2.50.

Selected Paragon.

We are quite confident that no better strain of an "all round" Tomato exists than the selection we are offering. It is early, a heavy bearer and produces fruit until killed by frost. The Tomatoes ripen evenly, are very solid, in flavor all that can be desired. For canners, market gardeners and family use it will be found indispensable.

Per oz. 30 cts.; $\frac{1}{4}$ lb. 80 cts.; lb. \$3.00.

The Lorillard.

One of the best for forcing under glass. It sets freely, four or five fruit to a bunch, all of equal and good size, and a vermilion-scarlet color.

Per oz. 25 cts.; $\frac{1}{4}$ lb. 75 cts.; lb. \$2.25.

LONG STANDING SPINACH.

Spinach, Long Standing.

The very best variety obtainable for spring sowing. It will stand ten days longer than any other variety before running to seed. The leaves are round, curled and produced in great abundance, and are remarkably succulent, thick and fleshy.

20 cts. per lb.; 10 lbs. \$1.75; \$6.00 per bus.

Tomato, Long-Keeper.

This excellent variety has proved in our experimental grounds to be one of the best and a desirable acquisition. The fruit is of medium size and shapely form. It is remarkably solid and a long keeper; of a deep pink color, entirely distinct; very suitable for slicing and a good solid Tomato.

Per oz. 25 cts.; $\frac{1}{4}$ lb. 75 cts.; lb. \$2.25.

FLOWER SEEDS.

This is a very important branch of our business, to which we have always given the closest attention. Our constant aim is to procure the very best strains obtainable, both of home and foreign growth, and we spare no pains or expense with this object in view. We call especial attention to our choice strains of Asters, Cineraria, Calceolaria, Gloxinia, Pansy, Petunia, Primula and Verbena, which are acknowledged by leading growers to be superior in all respects. Our trade packets contain a liberal supply; where smaller quantities are wanted, buyers can select from retail catalogue at a discount of one-third, excepting Novelties, on which we can only allow 25 per cent.

Half trade packets can be supplied only where noted.

Dreer's Superb Asters.

Our Aster seed is procured from the most celebrated growers in Germany and France, and is of the very finest strains. We offer the following varieties and colors:

SINGLE AND DOUBLE TUBEROUS-ROOTED BEGONIAS

TUBEROUS-ROOTED BEGONIAS.

The strain of Tuberous-Rooted Begonias we offer is too well known to require lengthy description. suffice it to say that we have used the same care with this as in the previous seasons, to select only such varieties as are adapted to our climate and certain to give satisfactory results. The bulbs are of good size, well-ripened and first-class in every respect.

The prices are as low as is consistent with good quality ; the retail florist who is growing a few hundred bulbs for his spring trade, to sell over the counter in bloom, will find many of the cheap indifferent strains now offered dear at any price. We offer but one quality, and that is the best.

FOUR GRAND CANNAS.

MADAME CROZY

ner as to intensify the yellow. Its habit of growth is entirely distinct from all others, the foliage being similar to that of the Abyssinian Banana, and of a light green color; it attains a height of 5 to 5½ feet. Price, 75 cts. each; \$7.50 per doz.; \$60.00 per 100. Ready March 15.

Paul Marquant.

Another grand variety and one of the most pleasing and beautiful on account of its large size, and entirely distinct and novel color. The flowers, which are larger than in any other variety, stand out from the spike separately in such a manner as to attract special attention. Its color, which is difficult to describe and which is frequently compared in softness to an Orchid, is of a bright salmon scarlet passing to a rosy carmine, with a peculiar silvery lustre which lights up the salmon very brightly; the foliage is of a dark green, and its habit very dwarf, growing from 3 to 3½ feet high. Price, 75 cts. each; \$7.50 per doz.; \$60.00 per 100. Ready March 15th.

Madame Crozy.

This variety is now so well known that it seems unnecessary to offer any description of it. Many similar seedlings are continually offered as improvements, but among all we have seen or tried it stands without an equal in its type. We were the first to offer this Canna in this country during the fall of 1890, and we know of no other plant of which such a large quantity was distributed, that gave such universal satisfaction. Our stock this season is very large, which enables us to offer it at a low price. 20 cents each; \$2.00 per dozen; \$15.00 per 100. Ready now.

New Yellow Canna—Nellie Bowden.

A variety of American origin that comes very highly recommended. We give the introducer's description not having had the opportunity of testing it on our own grounds. "Fine bright yellow flowers, having a touch of orange in the throat, flowers borne in immense clusters and very free flowering; foliage rich green." 3 feet. 75 cents each; \$8.00 per dozen.

Of the many new varieties introduced during the past few years, the four here offered are without exception the grandest and finest. All are of large size, of rich and distinct colors, and of strong, vigorous habit.

With the exception of Mme. Crozy, which has been distributed very largely last season, the other varieties, on account of the high price asked for them last season and owing to the scarcity of the stock, were sent out only in limited numbers, and will, at the prices we now quote them, prove a paying investment, as the demand is certain to be very great.

Alphonse Bouvier.

This is, all points considered, probably the finest variety yet introduced. It is a remarkably luxuriant and free grower, in rich ground attaining a height of six to seven feet. In color it is of a rich brilliant crimson, almost approaching scarlet when it first opens, changing to a deep dazzling crimson as the flower fully develops. It has a peculiar habit of dropping the flower cluster a trifle as the second flowering shoot begins to push above the first, and the shoots flower three or four times in succession, a large plant frequently having as many as thirty or forty of the large brilliant clusters of flowers at one time; the foliage is of a rich deep green color.

Price, 60 cts. each; \$6.00 per doz.; \$50.00 per 100.

Ready now.

Captaine

P. de Suzzoni.

The finest yellow spotted variety yet introduced. Its flowers are very large, with broad rounded petals produced in large spikes; the ground color is of a rich canary yellow, while the entire flower is spotted with cinnamon red in such a man-

New Dwarf French Cannas.

LATEST NOVELTIES—INTRODUCTIONS OF 1893.

Admiral Gervais. Somewhat in the style of Mme. Crozy. The individual flower is not quite so large, but shows considerable more yellow in its markings; it is of much dwarfer habit, never exceeding 3 feet in height.

Chas. Henderson. One of the best introductions of the season. A remarkably strong bushy grower, forming fine compact plants of symmetrical shape, with bright green foliage, flowers large, of a rich crimson with satiny surface, petals well rounded and of good substance. 3½ feet.

Comtesse L'Estolle. Another grand spotted yellow variety and well worthy of extended trial. The flowers are of very large size, of a bright canary yellow, evenly and regularly spotted throughout with bright cinnamon red spots, foliage bright green, habit of plant good, producing plants of uniform shape; probably the best of this type. 3½ feet.

Devil de St. Grevy. A grand acquisition. Flowers of good size, with well rounded heavy petals of the most intense rich orange scarlet, foliage bronzy purple, very effective. 4½ feet.

Explorateur Crampel. Flowers of good size, borne in large heads and thrown well above the foliage; its color is a bright orange crimson with deep crimson markings; foliage green. 4 feet.

Egandale. Flowers of a fair size, of a currant red color, compact spike, bronzy purple foliage. 4 feet.

J. D. Cabos. Flowers of large size, of a peculiar shade of orange shaded capucine; foliage of rich deep purple. 4½ feet.

Egandale. Flowers of a fair size, of a currant red color, compact spike, bronzy purple foliage. 4 feet.

Marquise Arthur de L'Aigle. A most beautiful variety, on the general style of Mme. Crozy, but with a much wider edge of golden yellow; foliage green. 3½ feet.

Maurice Mussy. Rich satiny vermilion scarlet, of large size with broad rounded petals of good substance; foliage green. 4 feet.

Nardy Pere. Of the most intense rich brilliant crimson scarlet, very dazzling, flowers of good size, borne in large open heads; foliage dark green with purple veins and stems. 4 feet.

Prof. Gerard. A grand acquisition, flowers of a rich crimson scarlet, borne in very large spherical heads thrown well above the foliage, which is broad and massive, similar to Musa Ensete, and of a dark green color with purple edges and stems. 4½ feet.

Paul Bruant. A most beautiful flower of immense size, of the most intense shade of orange scarlet with satiny surface; foliage dark green with purple edge. 4 feet.

Secretary Stewart. Flowers of a bright garnet borne in large spikes, the flowers being well separated on the spike; foliage green. 4 feet.

Stadtgartner Sennholz. Flowers of medium size, of the most intense brilliant crimson scarlet; foliage bronzy purple. 4½ feet.

75 cents each; the set of 14 varieties, one of each, for \$10.00.

General Collection of Dwarf French Cannas.

The following collection embraces many of the new introductions of 1891 and 1892, as well as the best of the older varieties; the most of these sorts can be supplied in quantity, and where the selection is left to us, exceptional good value will be supplied.

We grow a large number of Ferns in three inch pots suitable for filling Fern Dishes, &c., which we can supply in assortment at \$6.00, \$7.00 and \$8.00 per 100, according to variety.

LASTREA ARISTATA VARIEGATA.

New Variegated Fern.

Pteris Victoria.

A most remarkable and beautifully variegated Pteris, and undoubtedly one of the most striking and desirable Ferns of recent introduction. The foliage is neatly divided, the sterile fronds being much wider than the fertile ones, thus giving the plant a most chaste and lovely appearance. The fronds are of a rich green color with beautiful silvery white variegation. 2½ inch pots, \$1.25 per dozen; \$10.00 per 100.

Microlepia Hirta Cristata.

This variety, though introduced about fifteen years since, is always scarce. We have now succeeded in working up a large stock of it, which enables us to offer it at a price which will make it profitable for the florist to lay in a stock of it and grow on into specimen plants. We know of no other Fern that will grow into profit so quickly. Small plants from three inch pots planted into ten or twelve inch seed pans, will make handsome specimens in less than six months that can be readily retailed at \$3.00 each, and will at the same time give the retail buyer more satisfaction than almost any other variety with any kind of care. We offer strong 3 inch pots, \$1.50 per dozen; \$12.00 per 100.

MICROLEPIA HIRTA CRISTATA.

FERNS—Continued.

Adiantum Farleyense.

We have at the present time one entire one hundred foot house filled with this most beautiful of all Maiden-Hairs, the plants being all in a vigorous thrifty condition. 3½ inch pots, \$5.00 per dozen; 4 inch pots, \$6.00 per dozen.

Doreopteris Nobilis.

We offer a limited stock of this handsome Fern. 2½ inch pots, 30 cts. each; \$3.00 per dozen.

New Fern.

Onychium Auratum.

A most desirable new species, with very finely divided pinnae, and excellent for growing on for specimens for decoration or exhibition purposes. 3 inch pots, \$3.00 per dozen; \$20.00 per 100.

IVY LEAVED GERANIUMS.

Wonderful improvements have been made in this class of plants during the past few years; the collection offered below embraces the best of the new and old varieties.

Alice Crousse. Deep rosy pink, very full.

Berthelot. Rich magenta, very double.

Camille Flammarion. Large full cup-shaped flowers of a deep rose color.

Comte de Choiseaul. Rich cherry pink.

Eden Marchii. Crimson shaded pink; large.

Eurydice. Rose mauve, shaded red, very double.

Jeanne D'Arc. Fine pure white.

Le Prophete. Rosy red.

M. de Lesseps. Large double; bright crimson.

Mme. Mongeot. Deep red of fine form, very dwarf and short jointed.

Robert Owen. Rosy red; very double.

Souv. de Chas. Turner. Deep pink feathered maroon in the petals; immense trusses.

Gladiolus, Snow White.

This is undoubtedly the best White Gladiolus. The flowers are of fine shape, large in size, and of a pure paper-white color, seldom showing a trace of any other shade. The spikes are large and set thickly with flowers.

\$2.00 per dozen; \$15.00 per 100.

Gladiolus, Lemoines Hybrids.

The Butterfly Gladiolus, distinguished by the rich and vivid coloring of its flowers. Extra fine mixed. 40 cts. per doz.; \$2.75 per 100.

GLADIOLUS HYBRIDUS NANCEIANUS.

New giant varieties of extraordinary size and remarkable beauty, in finest mixture.

35 cts. each; \$3.75 per 100.

Gladiolus Brenchleyensis.

Brilliant scarlet, fine for massing. 15 cts. per doz.; \$1.00 per 100; \$7.50 per 1000.

Gladiolus Ceres.

Pure white, spotted purplish rose, excellent contrast to Brenchleyensis.

25 cts. per doz.; \$1.50 per 100.

Gaillardia Grandiflora.

This is undoubtedly one of the finest of hardy Perennials. The flowers are large, very numerous, produced on long stems and excellent for cutting, and of the most gorgeous coloring. The centre is dark-red brown, while the petals are variously marked with rings of brilliant scarlet crimson, orange and vermillion, and often a combination of all these colors in one flower. It delights in a rather poor, light soil, and blooms in the greatest profusion from June to November.

2½ in. pots, 75 cts. per doz.; \$6.00 per 100. Clumps, \$1.25 per doz.; \$10.00 per 100.

GLOXINIA.

We have been making a specialty of the Gloxinia for many years, and grow many thousands. The bulbs are in an unusually fine condition, large and well matured, and are all of the Crassifolia type of foliage. The strain we offer cannot be surpassed, either in size of flower, richness of coloring or elegance of shape. Finest mixed varieties.

**Manettia Bicolor.**

A charming and profuse flowering climber, producing tubular flowers from 1 to 2 inches in length, the plant being literally covered with them the entire season. The coloring of these flowers is gorgeous in the extreme, being a flame color tipped with bright yellow, the contrast with the vivid green, glossy foliage is startling, making the plant an object of rare beauty. Strong 3 inch pots, 75 cts. per doz.; \$6.00 per 100.

Marantas.

Massangeana. 3 inch pots, \$1.50 per doz.; \$10.00 per 100.

Porteana. 5 inch pots, \$5.00 per doz.

Van den Heckeii. 4 inch pots, \$5.00 per doz.

Lapagerias.

Lapageria Rosea. We have a fine stock of this superb climber.

Strong plants, 5 inch pots, \$2.50 each.

Lapageria Alba. Good plants, 5 in. pots, \$4.00 each.

LILIES.**Lilium Auratum.**

Crop failed. Prices on application.

Lilium Speciosum Album.

Large fragrant, pure white.

Per doz., \$2.00; per 100, \$15.00.

Lilium Speciosum Rubrum.

Rosy white, spotted with crimson.

Per doz., \$1.25; per 100, \$8.00.

Lilium Tenuifolium.

(CORAL LILY.)

One of the earliest of lilies. Flowers of a dazzling orange scarlet.

Per doz., \$1.75; per 100, \$12.00.

Musa Ensete.

(Abyssinian Banana.)

The leaves of this magnificent plant are long, broad and massive, of a beautiful green, with a broad crimson midrib; the plant grows luxuriantly from 8 to 12 feet high, producing a tropical effect on the lawn, terrace, or flower garden.

5 inch pots, 18 in. high, 35 cts. each; \$4.00 per doz.
6 " 24 " 50 " 6.00 "

Milla Biflora.

To its pure white color and delicate perfume, it adds the valuable qualities of forcing readily and keeping several days. Wherever grown the bulbs should be set close together.

35 cts. per doz.; \$2.50 per 100.

MEXICAN PRIMROSE.

A plant that will no doubt be in great demand the coming season. Being of a trailing habit, it makes a useful basket or vase plant. The flowers are of a clear pink varied with scarlet and white centre.

60 cts. per doz.; \$4.00 per 100.

MONTBRETIA CROCOSMIFLORA.

Montbretias.

The Montbretias, although as yet little known, must rank amongst our most decorative bulbous plants. Their graceful spikes of showy flowers are invaluable for cutting, and are in full glory a month after all tender plants are killed by frost.

The list offered below includes the best of recent introduction.

Bouquet Parfait. Bright vermilion, yellow centre.

Crocsmiflora. Scarlet and yellow. \$2.50 per 100.

Drap D'Or. Golden yellow.

Elegans. Bright yellow, outside streaked scarlet.

Etoile de Feu. Vermilion, yellow centre, outside blood red.

Meteore. Yellow, outside blood red.

Phare. Brilliant red and yellow.

Rayon D'Or. Rich yellow, spotted brown.

Tigridie. Yellow and brown.

Transcendent. Vermillion orange, centre yellow.

Mixed varieties, 8 cts. each; the set of 10 varieties for 60 cts.

PLATYCODON GRANDIFLORUM.

(Wahlenbergia.)

One of the very best perennial plants; in constant flower from early spring to late fall. It forms dense clumps, which are covered with a mass of bell-shaped flower.

Strong clumps, 75 cts. per doz.; \$6.00 per 100.

General Collection of Hardy Pinks.

Claude. White deep maroon centre.

Earl of Carlisle. White laced crimson.

Juliette. White laced crimson.

Pink-Hardy.

Snow, or Mrs. Sinkins.—Forms a perfect mass of snow-white flowers, whether grown in pots or on benches. It is entirely distinct in form and superior to the old white Scotch Pink.

Strong clumps, \$1.00 per doz.; \$6.00 per 100.

2½ inch pots, 60 " 4.00 "

PLATYCODON GRANDIFLORUM.

New Hardy Garden Pink.**"HER MAJESTY."**

This variety is a grand improvement on the popular variety Snow or Mrs. Sinkins, to which it is superior in size of flower and freedom of bloom. The flowers, which are of a large size similar to a Carnation, are borne on stout erect stems 12 inches long, of the purest white color and very fragrant.

2½ inch pots, \$2.00 per doz.; \$15.00 per 100.

**"HER MAJESTY" PINK.**

DREER'S DOUBLE FRINGED PETUNIAS.

Rhynchospermum Jasminoides.

A beautiful greenhouse plant and a most valuable plant for planting against the pillars in a cool greenhouse, where it will grow luxuriantly, and produce its masses of waxy white Jasmine-like flowers in the greatest profusion, about Easter. They are most valuable in making up bouquets or cut flower designs, and the plants occupy but little valuable space.

We offer extra strong 5 inch pots 50 cents each; \$5.00 per dozen.

Solanum Jasminoides Grandiflora.

We have a large stock of this popular plant in 2½ inch pots, 75 cents per dozen; \$6.00 per 100. 3 inch pots, \$1.00 per dozen; \$8.00 per 100.

PETUNIA.

Dreer's Double Fringed.

We have been making a specialty of the double Petunia for twenty-five years, growing annually over five thousand seedlings; our strain is acknowledged to be the best in the country by all who have tried them, which we feel is fully appreciated by the increased demand every season. Our stock this season is, as usual, in fine condition. Selection has been made especially with a view to such varieties as are best suited to the retail trade.

ROSES.

New Rose---American Belle.

A pink colored sport from the American Beauty, and probably one of the greatest acquisitions to the Rose family in many years. It has been repeatedly exhibited at the various Exhibitions during the past season at Philadelphia, Boston, New York, etc., at all of which it was awarded the highest honors. It is entirely distinct from American Beauty both in foliage and color, of a rich deep pink when first opening, which changes to a handsome light pink as the flower develops. It possesses the same delightful fragrance peculiar to its parent, and is equally free in habit of bloom. Strong young plants ready April 15th. 75 cents each; \$7.50 per dozen; \$60.00 per 100.

NEW ROSE—KAISERIN AUGUSTA VICTORIA.

One of the most promising introductions of the season. The flowers are of large size, full, and produced in the greatest profusion, of a creamy white color, shading deeper towards the centre. It is a strong, healthy grower, with fine foliage, and will undoubtedly take a foremost place as a rose for forcing for cut flowers. Price, \$4.50 per dozen; \$35.00 per 100, strong 3-inch pots.
